Tommy,

COLSA provides the below comment in regard to FOIA request GSA-2015-000031.

COLSA Corporation considers Section J-2, Direct Labor Rates in contracts awarded under the OASIS program as confidential and proprietary information. Although OASIS is a GSA contract vehicle, published GSA Schedules were not utilized in the Pool Contract Award determinations. The solicitation required the use of actual rates of currently employed personnel. In addition the solicitation "guided" offerors to propose within a specific range of base salary, NTE profit and a fixed esc. With knowledge of this information it leaves a simple math calculation to back into COLSA's FPRP indirect rates. The disclosure of this information would leave COLSA in a competitive disadvantage in proposing TO's in this very cost competitive contract vehicle. Release of this information would compromise the integrity of the competitive nature of the OASIS contract
